

# Git and Github

---

COURTNEY KEARNEY & CANDACE MAURICE

PRO TIP: NEVER LOOK IN SOMEONE ELSE'S DOCUMENTS FOLDER.

# Git

---

noun \ 'git \

*British*

: a foolish or worthless person

That *git* of a brother of yours has ruined everything!

Oh, don't be such a silly *git*, of course your mates want you around.

# Git

---

noun \ 'git \

: a version control system (VCS) for tracking changes in computer files and coordinating work on those files among multiple people.

# Git

---

2005

Free

Open  
Source

# Github

---

web-based Git or version control repository and Internet hosting service

As of April 2017, GitHub reports having almost 20 million users and 57 million repositories,[6]  
making it the largest host of source code in the world.[7]
